

# LUONG NGOC MINH

## BUSSINESS ANALYST INTERN

A hard working backend developer with 6 months of experience in developing smart and efficient webapps for ecommerce and accounting usage. A humble person who is passionate about expanding his personal skill and knowledge to become a bussiness analyst, I'm eager to learn more to achieve my targets.

## Projects

7/2022 - 10/2022

### Developer

#### Ecommerce website with Rails

- Basic ecommerce website with products list by category pages, basic cart feature, search and filter feature. Product's detailed pages have comments and ratings section.
- Admin management pages have charts and basic CRUD function.
- Github: [https://github.com/awesome-academy/intern\\_ruby\\_2022\\_ecommerce](https://github.com/awesome-academy/intern_ruby_2022_ecommerce)

10/2022 - Now

### Developer

#### Accounting webapp

- Webapp for accountants to manage money requests of all employees in a company. Helping accountants to manage money progresses and to have reports about budget plans, cashbooks, money spent arranged by various criterias.
